Technician

Princess Juliana International Airport (PJIAE N.V.) is recruiting an **Electrical & Mechanical Technician** for their Electrical & Mechanical Department. The Electrical & Mechanical Department is responsible for the maintenance of all electrical, mechanical, and electronic systems at the PJIA facilities.

Responsibilities

The Electrical & Mechanical Technician is responsible for the quality and progress of the electrical, mechanical, and electronic maintenance and repair work on multiple systems, and executes routine preventative as well as emergency maintenance tasks.

- Assembles, evaluates, tests, and maintains electrical or electronic wiring, equipment, appliances, and apparatus.
- Troubleshoots and repairs malfunctioning equipment, appliances, and apparatus.
- Constructs and fabricates parts using hand tools and specifications.
- Reads and interprets electrical and electronic circuit blueprints, diagrams, and schematics.
- Provides technical direction and on-the-job training.
- Performs periodic preventive checks of electrical and mechanical systems to ensure optimal functioning and adherence to safety rules.
- Performs emergency repairs promptly and efficiently; advises on defects or malfunctioning. Remedies failures in electrical, mechanical, or electronic systems and installations after receiving instructions so that all systems and installations are running again in as little downtime as possible.
- Performs modification on current and new systems or installations to avoid overload or outages.
- Maintains a (daily) log of tasks performed and writes reports as required.
- Complies with service standards, work instructions, and airport safety requirements.

REQUIREMENTS

- Associates (MBO+) Electrical & Mechanical Technician diploma or suitable equivalent. Minimum 2 years of work experience as an Electrical Mechanical Technician.
- Good communication and interpersonal skills. Ability to communicate in English (written and verbal).
- Ability to read blueprints, technical schemes, diagrams, manuals, and technical instructions to determine technical problems or faults.
- Good analytical and problem-solving skills.
- Ability to deal with stress and work under tight deadlines.
- Ability to work shifts, after hours, weekends, and on public holidays.
- Ability to work in confined spaces.

HOW TO APPLY?

Interested persons can email their resume and motivation letter to career@sxmairport.com Please include "Technician" in the subject line. Application deadline **Friday, June 14, 2024**.
